25 YEAR RE-REVIEW

MEMORANDUM FOR: Director of Training

SUBJECT: Weekly Report #11: The Defense Intelligence School (DIS)  
24 May - 28 May 1965

~~CONFIDENTIAL~~

25X1 1. On Monday afternoon, [ ] gave a one-hour presentation  
25X1 about [ ] to the Attaché class, followed by [ ]  
two-hour discussion of the GRU and KGB. Both speakers were very effective.

2. Wednesday morning, selected Attaché-Designates saw the film I  
had obtained on Soviet Missiles and Rocketry. The viewers were from the  
Iron Curtain-Restricted Countries Seminar. The IC-RC Seminar leader,  
25X1 [ ] did a good job of translating the Russian film  
25X1 track as the film was shown. [ ] had also arranged to have [ ]  
25X1 currently an Air Attaché [ ] attend and add some comments on  
25X1 Russian developments in the months since [ ] last fall in  
Moscow.

25X1 3. [ ] told me that his buddy in DIASA-6 (Training  
25X1 Group), [ ] was enthusiastic about the recent Project USEFUL.  
25X1 [ ] is one of two officers who'll put together the HELPFUL counterpart.

4. The surveillance exercise for IC-RC students had a few bugs in  
it. One team quit too early; the other group got off to a poor start  
but improved in the final stages. Learning by doing wrong had its  
desired effect, though, for most of the participants were eager to do it  
again. They'll get two more opportunities, on field trips.

25X1 5. [ ] spoke to Attachés and a large group of wives on  
Soviet Non-Technical Approaches (familiarily known as "Booze, Babes, and  
Bucks"). There was considerable interest in the teen-age problem over-  
seas. Quite a number of the Attaché parents in this particular clan  
25X1 have teen-age children. [ ] was originally scheduled to make a Friday  
afternoon talk but agreeably changed to giving the two-hour presentation  
in the morning, when asked to do so. The switch in time freed the class  
for an early departure for the holiday weekend.

25X1 6. Based on [ ] advice, I've tried to help out on student  
requests when the requesting is reasonable and can be accommodated  
without particular strain to the Agency. Two recent examples: Biographic  
25X1 [ ]

SUBJECT: Weekly Report #11: The Defense Intelligence School (DIS)

25X1 info was obtained on The Congo counterpart for an Army Attaché, preparatory to a luncheon meeting; contact clearance is in process for a young Naval officer in DIC to discuss with an ORR representative the matter of current research on stopping Viet Cong junks in South Vietnam waters. The ORR person who can aid on this problem turns out to be [redacted] we've afforded him considerable external training in the field of Transportation.

25X1 7. Two personal decisions to cancel announced retirements by DIS  
25X1 personnel are of some interest. [redacted] is one of two candidates for  
25X1 the only flag-rank slot in ONI. His competitor, [redacted] is  
25X1 purported to have the inside track. In the other instance, [redacted]  
25X1 [redacted] suddenly decided not to leave on September 1 as Chief of the  
25X1 DIC course. Some say the revocation was in response to a general  
25X1 Secretary of Navy appeal for personnel to stay on; others know that  
25X1 [redacted] lacks some undergraduate prerequisites to his planned master's  
degree preparing him for teaching and feel that he'll seize on the  
added months here to get the needed make-up work out of the way before  
"re-retiring."

25X1 8. I'm off to Nags Head Thursday afternoon for a couple days of  
chasing the bluefish. Word is that the fish were begging to be caught  
this past weekend, but our party's commitment was for next!

[redacted]  
CIA Faculty Advisor, DIS
